SOFTWARE DEVELOPER

ACHIEVEMENTS

- Spearheaded the development of a mission-critical .NET C# application, reducing manual data entry by 50% and increasing data accuracy, resulting in a commendation from senior management.
- Implemented a responsive design overhaul for a customer-facing web application using front-end technologies, leading to a 30% increase in user engagement and positive customer feedback.
- Successfully migrated legacy distributed transactions from COM+ to .net Transaction Scope, resulting in a 40% improvement in transaction processing times and substantial cost savings in application maintenance.
- Introduced best practices in code review processes, resulting in a 20% reduction in post-release bugs and improved overall code quality.

SKILLS

- | | | |
|--------------------------------|-------------------------------------|-------------------------------------|
| - C# .Net, MVC, Java | - Amazon AWS Cloud, Python (Basic) | - Team collaboration & coordination |
| - SQL Server, Entity Framework | - Flutter, Dart, MongoDB (Basic) | - Software development life cycle |
| - HTML, CSS, JQuery | - Git, Github | - Business Analysis |
| - Javascript, React | - Microservice Architecture Pattern | - Project Management, Agile Scrum |

EXPERIENCE

2021 - Date: Software Developer, Millennium Freightways Inc., Mississauga, ON

- Collaborated with relevant stakeholder to design, develop, and maintain web applications using C# .NET, SQL Server, HTML, CSS, and JavaScript.
- Developed and optimized database queries, stored procedures to ensure efficient data retrieval and storage.
- Implemented features and enhancements, resulting in improved user experiences and increased customer satisfaction.
- Troubleshoot and debugged code to identify and resolve issues, ensuring the reliability and performance of applications.
- Worked closely with stakeholders to gather and analyze requirements, ensuring software solutions met business needs.

2018 - 2020: Full Stack Developer, Retoll Inc., Mississauga, Canada

- Designed, developed, and maintained web applications using C# .NET, JavaScript, and Bootstrap, ensuring high-quality code and responsive user interfaces.
- Regularly updated technical documentation and provided support to end-users, troubleshooting issues and implementing enhancements as needed.
- Kept up-to-date with emerging technologies and industry best practices to enhance software development skills.

2017 - 2018: Immigration Transition, Toronto, Canada

- During this period, I relocated from Bangladesh to Canada and was actively engaged in activities to enhance my skills and readiness to switch my career in software development.

2010 - 2016: Senior Business Analyst, Southtech Limited, Dhaka, Bangladesh

- Collaborated with stakeholders, including finance, IT, and end-users, to gather and analyze business requirements for financial software solutions used by banks and microfinance institutions.
- Led the requirements gathering process, conducted interviews, and facilitated workshops to elicit detailed functional and non-functional requirements.
- Translated business needs into comprehensive technical specifications and user stories for software developers, ensuring alignment with industry best practices.

EDUCATION

2023 - Date: Artificial Intelligence - Software Engineering Technology, Centennial College, Toronto, Canada

2005 - 2006: Canadian equivalent master's degree - assessed by WES (MSc. Information Systems Development, UK)

2002 - 2004: Canadian equivalent bachelor's degree - assessed by WES (BSc. Computing & Information Systems, UK)
